Zad. 1.

1.1 (girl)

Hi Jack! I've just started a new course. Everyone thinks I'm doing a regular painting class, but it's actually much more modern. We use tablets and special pens to create animations. I love it because I don't have to clean any brushes after I finish my work!

1.2 (boy)

I'm going to my first lesson of indoor climbing today. I've already put my comfortable sports clothes and a big bottle of water in my bag, so I'm ready to exercise. My friend told me I need specialized shoes for the climbing wall, but the instructor said I can rent them at the gym for the first time. It's great because I don't have to buy them yet!

1.3 (girl):

I spend every Saturday morning in the park near the river. No, I'm not running or cycling. I bring my binoculars and a notebook. I try to find different types of birds and write down their names. It's very quiet and relaxing.

1.4 (boy):

I'm a bit disappointed. I wanted to go geocaching with my brother today, but my phone is broken. Without the GPS app, I can't find any of the hidden boxes. We'll have to stay at home and play board games instead.

1.5 (teacher):

Attention everyone. Next week we are starting a new hobby club. Because the art room is being painted, we won't have the pottery lessons there. Instead, we will meet in the computer room to learn how to design 3D models.

Zad. 2

2.1 I've started a sewing course, but it's not regular sewing. We take old, broken clothes and turn them into something new, like bags or pencil cases. It's called upcycling. I'm happy because I don't throw away materials and I help our planet.

2.2 My grandfather has been a beekeeper for forty years. Last summer, he showed me how to take care of bees and collect honey. I found it so fascinating that I now help him every weekend. It's great to spend time with him.

2.3 I spend a lot of my free time in the forest. I don't go there to play or shout. I just sit and wait to see wild animals. You have to be completely silent for a long time, or the animals will run away. It's the best way to relax.

2.4 I love technology, so I started a hobby called 'coding'. I use a special program on my laptop to create simple video games for my friends. It takes a lot of time, but seeing the game work is a great feeling.

Zad. 3.

Tom:

Hi Mia! What's that in your bag? Is that an old pair of jeans?

Mia:

Hi Tom! Yes, but I'm not going to wear them. I'm taking them to my upcycling course. We use old clothes to make new, useful things.

Tom:

Sewing? That sounds a bit boring. Why don't you just buy new things?

Mia:

It's not boring at all! It's creative. Last week I made a pillowcase, and now I'm making a backpack from these jeans. It's going to look unique.

Tom:

Hmm... a handmade backpack? That actually sounds cool. Can anyone join?

Mia:

Sure! There is a new group starting on Friday. Why don't you come with me?

Tom:

You know what? I think I will try it. See you then!

Zad. 4.

Speaker 1

I've just finished my first digital illustration. What do you think of it?

Speaker 2

I'm going to the climbing wall this afternoon. Do you want to join me?

Speaker 3

I'm having some trouble with my sewing machine. It keeps stopping

Speaker 4

Why don't we sign up for a dance class together?
